Switching your commercial Electricity or Gas account has never been easier.

# Business Energy

Dating back to 1941, Alinta Energy has a long and proud history of delivering energy solutions in Australia. Our challenge is to make energy for Small to Large Businesses more affordable. We manage a diverse range of upstream gas contracts and own and operate power generation stations that provide flexible customer solutions.

As a vertically integrated energy company, we specialise in delivering energy solutions to a range of large industries, including manufacturing, mining, government and commercial buildings. In the small to medium business space we have existing customers that are bakers, muffin makers, hairdressers, medical centers, bars, restaurants, cafes, bank branches, horse racing clubs, small manufacturing, hotels, property management and government (schools, public lighting and offices).

## Business Electricity

Available to selected small, medium or large businesses nationally.

## Business Gas

Available nationally for large businesses. Available in Western Australian for small and medium sized businesses.

# What makes a Business Energy customer

## Small to Medium Business

# We work with you

At Alinta Energy, right up front, we want to make a deal with you. A deal to be fair. A deal to be straight forward. A deal to do what we say we'll do and to create a business solution that works for you and your business.

We'll talk honestly, surprisingly so at times, about where energy comes from, how much it costs and how together we can make a difference. We'll debunk the myths. We'll take the shock out of bills by making them understandable.

We promise to make doing business easy. We want to keep energy fair for all Australians.

Your business is unique, that's why at Alinta Energy we have a dedicated team of commercial and industrial energy experts to work with you and your business to create a customised energy package. **So give our team a call today!**
