information, our policies, news and why work with us.

At Alinta Energy our mission is to make energy more affordable.

About Alinta Energy

Alinta Energy supplies natural gas and electricity to over 790,000 homes and businesses throughout Australia.

We employ over 400 people across Australia and New Zealand.

Community

Alinta Energy has a significant involvement with many local communities. Our longevity and sustainability is very much dependent on the strength of these relationships.
